## Simes. Wateriall /Utility Pumps

Waterfall/Utility pumps are multi-functional. They can be used to create streams and waterfalls in your garden pond or for general dewatering purposes. These pumps meet your most demanding application for either use.

## Geyser ${ }^{\circledR}$ Model 2430

- Heavy-duty thermoplastic and stainless steel construction maximizes pump life
- Maximum pumping capacity to 2400 gallons per hour
- Designed for continuous operation, ideal for waterfalls and streams
- Quiet, oil-free motor safe for fish and plants
- Easy installation: includes 15 ' power cord, 1-1/4" barbed fitting and garden hose adapter

Performance

| Model Number | HP | Warranty (Years) | Gallons per Hour at Discharge Height Above Pumping Level |  |  |  |  | Max Lift No Flow |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | $0^{\prime}$ | 5 | $10^{\prime}$ | $15^{1}$ | $20^{\circ}$ |  |
| 2430 | 1/3 | 1 | 2400 | 1920 | 1380 | 780 | 240 | $22^{\prime}$ |

## Geyser ${ }^{\circledR}$ Model P3010

- 12 volt, 21 amp DC battery powered motor
- Replaceable 10' DC cable leads included
- Corrosion resistant thermoplastic construction
- 1-1/4" discharge with garden hose adapter included
- Copper eyelets for hookup to auto or marine battery
- Pumps floors dry to 1/8". Fits 6" opening

Performance
